

LASTEC®

Manufacturer of the
World's Only High-Definition
Articulating Mowers

TURF/COMMERCIAL MODEL 100ER

The Model 100ER delivers amazing productivity at a price point that is a fraction of other options available on the market.

Since Lastec's introduction of articulating rotary mowers in 1990, the turf industry hasn't had to accept the turf damage caused by wide area decks. Lastec Articulators all cut with the quality of a small push mower no matter how wide you need to cut. The Model 100ER is no exception, delivering a 100" (2.5 M) wide cut with the accuracy of five 21" (535mm) push mowers.

This versatile model mounts to a variety of tractors and delivers a cut so accurate that a whole new term describes it...

High Definition Mowing.

LASTEC

Manufacturer of the
World's Only High-Definition
Articulating Mowers

TURF/COMMERCIAL MODEL 100ER

The spindles are removable with 3 bearings and new trashguards for longer life

Five 21" (535mm) decks for greater accuracy

Lastec patented belt drives are 5 times more efficient and lower cost to maintain than competitor's hydraulic drives

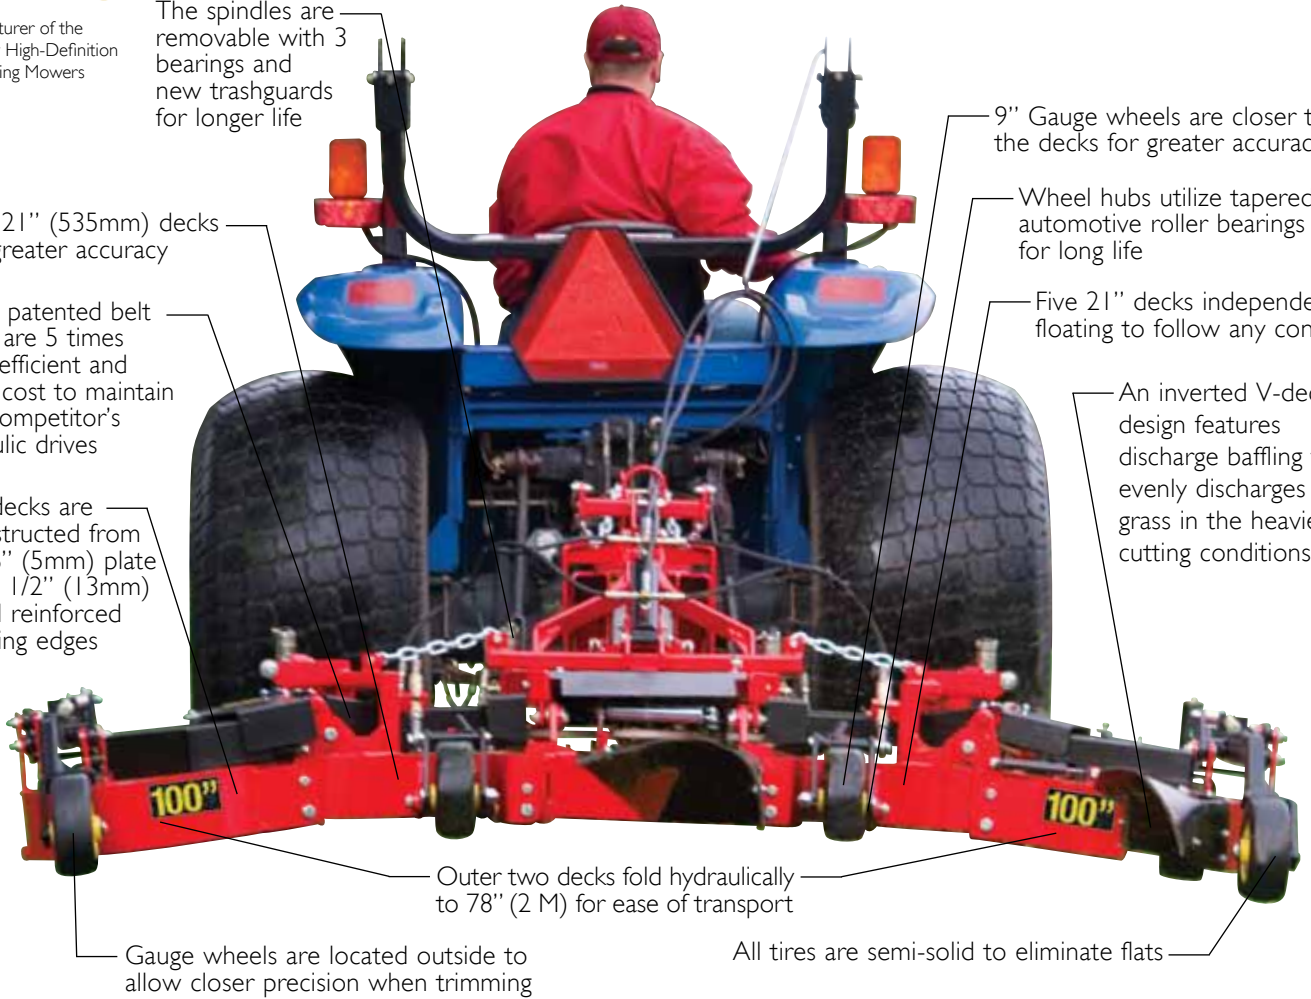

All decks are constructed from 3/16" (5mm) plate with 1/2" (13mm) steel reinforced leading edges

9" Gauge wheels are closer to the decks for greater accuracy

Wheel hubs utilize tapered automotive roller bearings for long life

Five 21" decks independently floating to follow any contour

An inverted V-deck design features discharge baffling that evenly discharges grass in the heaviest cutting conditions

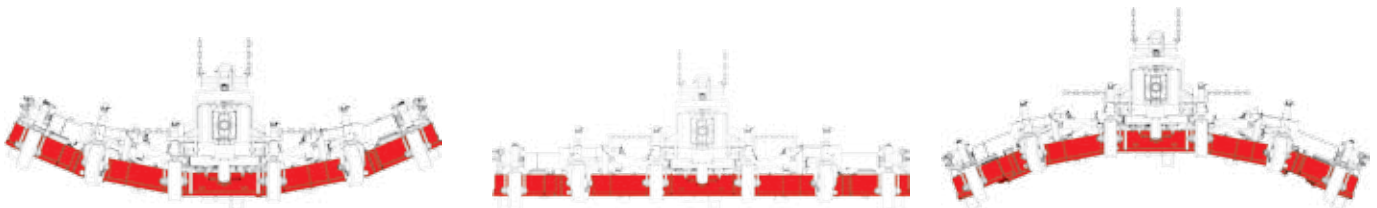

Outer two decks fold hydraulically to 78" (2 M) for ease of transport

Gauge wheels are located outside to allow closer precision when trimming

All tires are semi-solid to eliminate flats

Quality Rotary Mowers for a World that isn't Flat

Outer two decks fold hydraulically to 78" (2 M) for transport

100ER SPECIFICATIONS*

- Tractor Requirements: Minimum 35HP at PTO
Standard Category-I
3 Point Hitch
- Cutting Width: 100" (2.5 M)
- Transport Width: 78" (2 M)
- Deck Configuration: Five 21" (535mm) Fully Articulating
- Deck Height Range: 1" to 4 1/2" (2.54 cm x 11.43 cm)
- Overall Weight: 1060 lbs. (526 kg)

U.S. Patent Nos. 6,065,274
6,205,754
